

WAKE | TUNES | CREW

heyday®

TWENTY
NINETEEN

Meet the entire lineup at global.heydaywakeboats.com

WE'RE ALL SURFERS.

UNLIKE OTHER BRANDS THAT OVER-ENGINEER THEIR BOATS AND RELY ON EXPENSIVE WAKE-SHAPING TABS AND GATES, HEYDAY'S SIGNATURE HULL SHAPE CREATES GREAT WAKES THAT REAL PEOPLE CAN ACTUALLY AFFORD.
BECAUSE IN THE END, IT'S ALL ABOUT WAKE, TUNES, CREW.

"It's about time someone made a sick boat that people can actually afford." — Wake Pro Dylan Miller behind the WT-1

WAKES APPROVED
BY THE PROS.
**PRICES APPROVED
BY EVERYONE ELSE.**

Heyday is revolutionizing the wake sports industry by putting wake quality first and constantly innovating and refining each model in the lineup.

Our boats are purpose-built, so they're designed with everything you need—nothing you don't. Helms offer full wake, ballast and speed controls. Tons of storage accommodates all your gear. Social layouts with flexible seating get you closer to the action. And powerful inboards deliver plenty of pull.

From seasoned pros to the family down the street, Heyday's combination of performance and value is a hit. So grab your board and your crew, and get ready for a great time.

IT LOOKS DIFFERENT BECAUSE IT IS DIFFERENT.

BUILT FROM THE BOTTOM UP TO MAKE A SUPERIOR WAKE.

BOW SPONSONS

Twin bow sponsons allow the boat to take on large waves without taking on water while returning to the rider, and increase the boat's overall stability at slower speeds.

GREATER TRANSOM WIDTH

The optimal wakeboard wake is perfectly symmetrical, so we created one of the widest transoms in the category. It cancels out prop torque, adds balance and reduces sensitivity to weight distribution.

BAILING STRAKES™

Unlike traditional boats that use lifting strakes to rise, wake sports boats need to push lower into the water. So we designed Bailing Strakes™ to push water from under the boat, enabling more downforce.

117° TRANSOM ANGLE

Our unique, angled transom creates a natural curl in the wake as the water releases from the hull side at different times, producing a superior wave for surfing.

FREEBOARD DEPTH

Displacement is limited by the boat's side height or freeboard. Heyday's aft freeboard is deeper, increasing the amount of hull that can be pushed into the water.

RADIUSED TRANSOM CORNERS

Soft-radiused corners pull the water around on the listed side of the boat. Working with the 117° transom angle, they create an ideal surf curl.

INTEGRATED BALLAST

Wave height is determined by displacement, or the amount of the hull that rides below the waterline. Our integrated ballast tanks fill with water to push the hull deeper into the water, increasing displacement and wave height.

SPEED CONTROL

Our standard or optional Zero Off™ GPS Speed Control systems allow you to maintain a constant speed for a more consistent wave.

WAVE HEIGHT: IT MEASURES UP

A TALL WAVE IS VITAL TO BOTH WAKEBOARDING AND WAKESURFING—AND THE INSPIRATION FOR HEYDAY'S SIGNATURE HULL DESIGN.

With a simple flip of a switch, Heyday's built-in ballast tanks fill with water to add weight and push the hull further below the waterline. Our Bailing Strakes™ help push water from under the boat, minimizing the hull's resistance to downforce, while a deep freeboard allows for increased water displacement. And our speed control systems maintain a constant speed for a more consistent wave.

See our wakes in action and learn how to use them at global.heydaywakeboats.com

GREAT HEIGHT

LARGE WATER COLUMN GIVES THE RIDER MORE PUSH

LONGER WAVE

PROVIDES A LARGER STAGE FOR SHOWING OFF

MORE DISPLACEMENT

GREATER VOLUME OF WATER FUELING THE WAVE

SOLID, STEADY PUSH

WAVE MAINTAINS CONSISTENCY THROUGH THE ENTIRE RIDE

DISPLACEMENT = HEIGHT

IDEAL SYMMETRY

CONSISTENT WAVE SHAPE FOR BOTH TOE AND HEEL SIDE

PLENTY OF POP

RIDER CAN BOOST OFF THE WAVE AND MAXIMIZE HANG TIME

HULL SHAPE = WAVE SHAPE

WAVE SHAPE: NATURALLY SUPERIOR

SIZE MEANS NOTHING WITHOUT THE PERFECT SHAPE. THAT'S WHY HEYDAY BOATS ARE DESIGNED TO CREATE WAKES THAT SUSTAIN A SURFER'S RIDE AND LET BOARDERS GRAB MAJOR AIR.

For surf waves, our 117° transom angle and soft-radiused transom corners combine to generate a natural curl off the listed side of the boat, creating a firm, clean surf pocket without the use of expensive tabs. Wakeboarders praise our extra-wide transom, which cancels out prop torque and gives the boat more balance and less sensitivity to passenger weight distribution.

RIGID CURL

FORMS A SURF POCKET THAT PUSHES THE RIDER FORWARD

WT SURF

- Hull Length 23' 6" 7.16 m
- Beam 8' 0" 2.44 m
- Estimated Draft 29" .74 m
- Dry Weight 4,300 lbs 1,950 kg

- Ballast 1,270 kg
- Capacity 17 Persons
- Base Engine 5.7L / 350 HP
- Fuel Tank 227.1

OUR BIGGEST BOAT AND LONGEST WAVE

WT-SURF: PULLS ITS WEIGHT AND THEN SOME

The WT-Surf offers a sleek profile, protection from the elements, and our largest available standard ballast for a longer surf wave and more epic ride. The layout offers ample space for gathering in the bow, cockpit and stern, with an easy walkthrough to the swim platform. Versatile seating with rich double-stitched upholstery is ready to welcome your entire crew.

MAKE IT YOUR OWN

Every WT-Surf is wake-ready, but you can customize yours with popular Heyday options like:

- Swivel board racks
- 320-409 HP power options
- Integrated touchscreen display
- Zero Off™ GPS Speed Control

WT-2DC

· Hull Length 20' 6" 6.24 m
· Beam 8' 0" 2.44 m
· Estimated Draft 31" .79 m
· Dry Weight 3,550 lbs 1,610 kg

· Ballast 816 kg
· Capacity 11 Persons
· Base Engine 5.7L / 350 HP
· Fuel Tank 128.7 l

BRAND NEW AND READY TO RIDE

WT-2DC: DUAL CONSOLE COMFORT UNDER 7 METERS

The WT-2DC delivers a spacious layout with a full windshield. A massive bow with adjustable armrests, wraparound cockpit seating, and aft 'hot tub' seats keep your whole crew comfortable all day. A walkthrough with transom step gives riders a spot to prep for the next session, plus a ski locker and under-seat storage throughout easily handle your gear.

MAKE IT YOUR OWN

Every WT-2DC is wake-ready, but you can customize yours with popular Heyday options like:

- Deluxe textured flooring
- 320-350 HP power options
- Ski tow pylon
- Sunshade for tower

WT-1SC

· Hull Length 17' 6" 5.33 m
· Beam 8' 0" 2.44 m
· Estimated Draft 31" .79 m
· Dry Weight 3,150 lbs 1,429 kg

· Ballast 544 kg
· Capacity 9 Persons
· Base Engine 5.7L / 350 HP
· Fuel Tank 132.5 l

SERIOUS FUN MEETS SERIOUS VALUE

WT-1SC: EVERYTHING YOU NEED TO GET STARTED

At just under 6 meters, the WT-1SC offers maximum affordability and fits easily in most garages. The side console helm gives this model an open layout for socializing, while an in-floor locker and under-seat storage throughout the cockpit keep gear neatly tucked away. 'Hot tub' seats let passengers face forward or backward comfortably.

MAKE IT YOUR OWN

The WT-1SC is wake-ready, but you can customize yours with popular Heyday options like:

- LED light package
- 320-350 HP power options
- Digital screen dash upgrade
- Deluxe travel cover

STANDARD FEATURES

ENGINE

- 5.7L Crusader 350 HP

COCKPIT

- Textured Flooring
- LED Courtesy Lights
- Movable Backrest
- Cup Holders
- Grab Handles
- Fuel Fill w/ Integrated Vent
- Bolstered Helm Seat
- Head Unit w/ 4 Speakers
- Folding Xtreme Tower (Black)
- In-Floor Ski/Wakeboard Storage

HELM

- Ballast System
- Speed Control
- Hydraulic Steering System
- Tilt Steering
- Custom Sport Steering Wheel
- Convex Ski Mirror
- Safety Lanyard
- 12V Accessory Outlet
- USB Accessory Outlet
- 12V Horn
- 500 GPH Bilge Pump (Automatic)
- 12V Blower

INSTRUMENTATION

- Speedometer
- Tachometer
- Fuel Gauge
- Billet Toggle Switches

HULL AND DECK

- 12V Navigation Lights
- Removable Swim Platform
- Stainless Steel Tow Ring
- Bow & Transom Eyes
- Mooring Cleats (4)
- Hull Graphic
- Fiberglass Floor Liner
